Summary dashboard: Overview

What does the report show?

The report provides FFT benchmarking information for each element of the DfE's Attainment 8 accountability measure. The benchmarks indicate how similar pupils within the cohort performed in schools last year at the three FFT benchmark progress points: Average FFT **50**, High FFT **20** and Very high FFT **5**.

Cohort summary

Provides a summary of the cohort's context information. The figures update when filters are applied.

Performance measures

The Attainment 8 element indicators display the average grade on a 9-1 scale attained by similar pupils in schools at each of the FFT benchmark progress points (50, 20 and 5) in that particular element. Estimated number of entries for the Ebacc and Open elements indicate the average number of slots filled by similar pupils in the schools as 50, 20 and 5 progress points. The two threshold measures estimate the percentage of pupils attaining five+ grades at 7-9 (equivalent to five+ grades at A*/A) and the percentage attaining Grade 5+ (Strong Pass+) in both English & Maths combined.

Filters

Recalculate the whole reports for specific groups of pupils within the cohort. The selected group names will appear at the top of the report in a grey bar and the cohort summary figures will reflect the context of the filtered group.

My School

An estimate of the cohort's performance for each indicator based on how similar pupils (similar prior attainment) have performed in the school over the last three years (weighted to the most recent year). As a starting point for discussions regarding the most effective FFT level of challenge for a cohort, compare the 'My School' value against the FFT estimated values at each of the progress points (average, high and very high).

Summary dashboard: Pupil groups

What does the report show?

The report provides FFT benchmarking information for each element of the DfE's Attainment 8 accountability measure, broken down into key pupil groups. The benchmarks indicate how similar pupils (similar prior attainment) within each group performed in schools nationally last year, at each of the three FFT benchmark progress points: Average FFT **50**, High FFT **20** and Very high FFT **5**.

Overview **Pupil groups** Pupils

Cohort summary

Provides a summary of the cohort's context information.

Pupil groups

The number of pupils within each pupil group is displayed. FFT only calculate benchmarks for 'matched pupils', those with prior attainment. Number of matched pupils are indicated within the brackets over on the chart.

Prior attainment group

Number of pupils in each third nationally in terms of their Key Stage 2 prior attainment (highest third, middle third and lowest third).

Prior Attainment	Higher attainers	28
	Middle attainers	40
	Lower attainers	39

Chart

Select which subject, indicator and level of challenge to display FFT benchmarks for. Pupil groups are ranked from high to low by their FFT benchmarks. The 'My school' benchmark provides a quick comparison between previous school performance for the indicator and the selected FFT benchmark. Hover over the bars to view their values.

Summary dashboard: Pupils

What does the report show?

The report provides estimates of individual pupil performance in the elements of the DfE's Attainment 8 measure. Estimates are provided on the new GCSE 9-1 grade scale. The number of entries, or slots filled, for the Ebacc and Open elements for each pupil are also estimated. Moving the challenge slider allows modelling of estimates, being based on how similar pupils have performed in schools at the different FFT progress points: Average FFT (50), High FFT (20) and Very high FFT (5).

Key Stage 2 results

KS2 prior attainment in levels or scaled score.

HML column

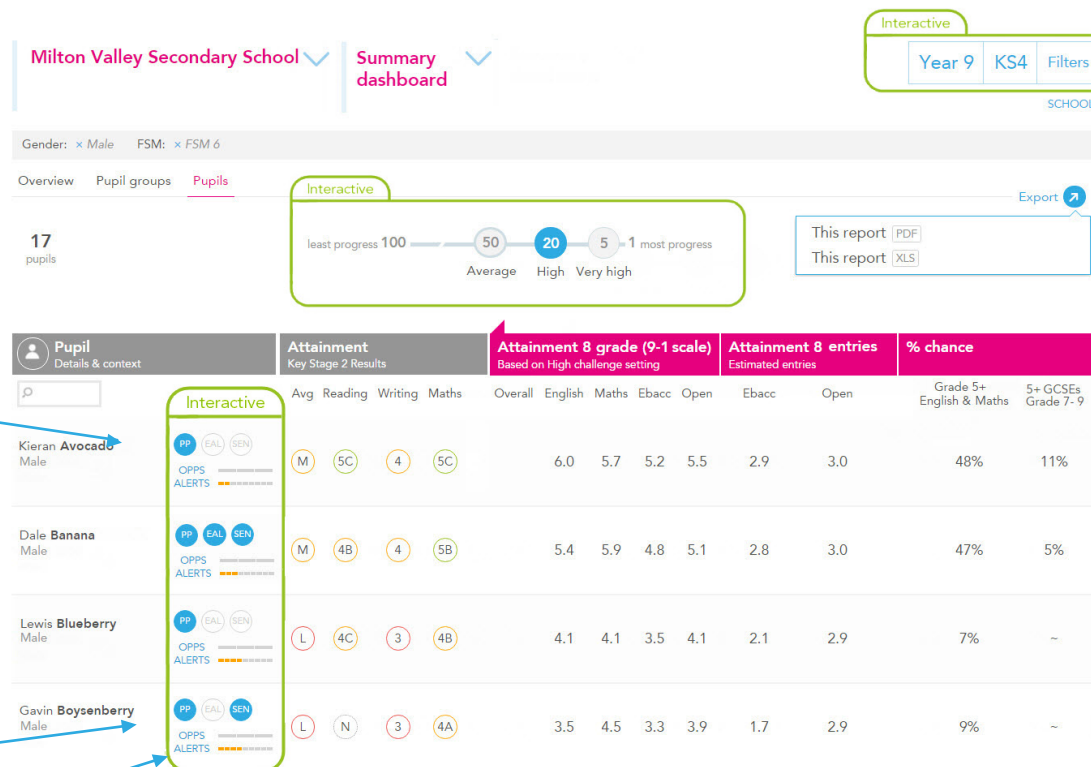

Indicates where the pupil's KS2 results ranked nationally: H = Highest third, M = Middle Third and L = Lowest third of pupils.

Context tokens

Quickly identify Pupil Premium (FSM6), EAL and SEN pupils.

Alerts

Quickly identify pupils who may require further support to reach their aspirational targets.

Pupil group filters menu

Filter for pupil groups or change year group. Filter selections appear in the grey filter bar.

Challenge slider

Move the Challenge slider to explore challenging and realistic FFT benchmarks for the subject. As the level of challenge increases from 50 to 20 to 5 the estimates values will increase.
